

Alun Davies AM
Minister for Lifelong Learning and Welsh Language

11 October 2016

Dear Minister

Inquiry into Welsh in Education Strategic Plans (WESPs)

In December 2015, the former Children, Young People and Education Committee published a report on WESPs. The report was debated in plenary and the Minister confirmed that the Welsh Government had commissioned an evaluation of its Welsh-medium Education Strategy, including the role and effect of WESPs.

The Committee would very much welcome an update on progress since the report's publication with specific reference to Welsh Government's response to the report recommendations.

It would also be useful if you could update the committee on any developments since the evaluation concluded and, in due course, your response to the recommendations made to Welsh Government in the recently published Estyn report on WESPs.

Yours Sincerely

Lynne Neagle AC / AM
Cadeirydd / Chair
