

Rebecca Evans AM
Minister for Finance and Trefnydd

3 July 2019

Dear Rebecca

Environment (Legislative Functions from Directives) (EU Exit) Regulations 2019

The Constitutional and Legislative Affairs Committee considered the Welsh Government written statement issued under Standing Order 30C for the above named regulations at its meeting on 24 June 2019.

We are concerned that the written statement is not specific enough to determine the impact these Regulations may have on the National Assembly's legislative competence. For example, the paragraphs under the heading "Air Quality, Water and environmental noise" confirm the law as set out in the *Government of Wales Act 2006*, but do not contain an assessment of the specific impact of the Regulations on legislative competence in those policy areas.

We would be grateful if you would provide clarification on this matter, at the earliest opportunity.

Yours sincerely

Mick Antoniw AM
Chair
